6. At morning roll call on 21 September, the KVPs of AAA Unit Rau at Altwarp were informed that their unit had the highest efficiency rating of all KVP AAA units which participated in firing practice at Zingst. The unit was awarded a special furlough which was to be taken in fer groups. Only 25 KVPs of the unit were detached for harvesting employment, On 20 September, the installation was occupied by about 280 KVPs. Recruits had not yet arrived.

25X1

- 7. The AAA unit was equipped with 26×37 -mm AA guns and 12 medium AA guns.
- S. On 14. 15 and 16 Sentember, an AAA battery, including six artillery pieces and eight vehicles, participated in a field exercise in the Torgolow area.
- The driver school unit which was quartered in the same installation numbered 200 KVPs. Details of 50 KVPs were detached for harvesting employment.
- 10. Ch.23 September, Major General Hermann Rentzsch, his staff, and two Soviet instructors held fell inspection in the Karpin area. From 1000 to 1100, all units from Marpin and units from Spechtberg, without vehicles and heavy weapons, passed in review before Major General Rentzsch. In the afternoon, the general inspected the various sections of the Marpin post. A KVP officer stated that, after termination of the field emercice, the troops could take a rest and that no further field exercises were to the expected.
- 11. Prior to 28 Espiember, the barracks installations sections A through B were occupied by the same units as before the beginning of the field exercises. Training was held within the area of the various sections. Only tank units left the installation for field exercises in the Jaegorbrueck-Hoolkebaum area on Monday and returned to Karpin on Saturday.
- 12. Major Bohnert (Thu) was commanding officer of the unit quartered in section A, and M jor Guenther Schmidt commanded the units quartered in section B of the installation at Spechtberg. Major Schmidt also was post cammander at Spechtberg.

Comment. The fall inspection of Machanized Division Eggesin probably was hold between 20 and 23 September 1954. It is believed that the inspection of artillery and tank units was continued after that date in the area of the Jaegerbrueck troop training grounds. The training of the KVP units was temporarily interrupted by detachment of personnel for harvesting employment. No definite conclusions can be drawn that the fall inspection terminated the training year or major field exercises will be held in October 1954 after completion of harvest.
